Dominican's groundbreaking in 1956

A new office space will be located near the front entrance of the school so students and visitors will be greeted upon entering. [Click here](#) to read about all the campaign projects!

Welcome to Dominican's Future!

Dominican has launched an exciting campaign and we need *your* support to make our dream a reality. The school's infrastructure has not been significantly renovated or updated since 1956 and it is clear to everyone in the community that now is the time to make the necessary renovations.

In June 2014, Dominican leadership kicked off the Major Gift Phase of the *Knight Vision* Capital Campaign with a goal of \$5 million. With the support of an extraordinarily generous group of benefactors, *Knight Vision* reached that \$5 million goal within only a few short months!

While we have raised \$5,165,213 already, our *Knight Vision* campaign goal is \$6 million. Fortunately, we have an incredible opportunity to help us reach that goal. As an incentive, Partners Advancing Values in Education (PAVE) is offering a challenge grant of up to \$100,000 for all donations made to *Knight Vision* through April 2015.

If the Dominican community can raise \$100,000 by April, PAVE will match that total - this is your chance to have your gift doubled!

Stay Informed!

Dominican will be sending e-newsletters with campaign highlights and updates
